2Samen... for more than 70 years at home in childcare

You are currently in search of childcare, maybe for the first time. So we can imagine that you are taking ample time to make a conscious and careful decision when choosing the organization to which you entrust your child. This brochure will provide you with a first impression of our care. Has your interest been aroused? Then we will be happy to invite you for a guided tour, without any obligations, through the childcare centre of your choice. In this way, you can see for yourself where and how we will take care of your child.

For more than seventy years now, we have taken up the challenge to provide the highest possible quality and to make sure that each child and every parent feels at home at 2Samen. We look forward to welcoming you and your child or children in the near future!

Types of care
2Samen offers childcare in Den Haag, Monster and Naaldwijk.

Day care 0 to 4 years old
Playgroups 2.5 to 4 years old
Early childhood education and care (ECEC) 2.5 to 4 years old
Out-of-school care 4 to 13 years old
Holiday care 4 to 13 years old

Opening Hours
Our childcare centres are opened from 7.30 a.m. until 6 p.m. At some locations, we make use of prolonged opening hours in the morning and/or afternoon. This means that these centres start earlier and/or close later. To see the specific opening hours per location, visit our website and look at the centre you have chosen.
Choose for quality

2Samen invests in quality continuously, such as in well-trained staff members, spacious childcare centres and an offer of activities in which the child’s development and pleasure forms centre stage. In addition, to you as a parent, we want to offer our services as flexibly and transparently as possible. We like to help you to ideally combine your work and your child’s care. Whatever form of childcare you need, you can rest assured that we will do everything to make your child feel at home.

If you choose for 2Samen, you choose for:
• A non-profit organization which invests in permanent quality • The highest customer satisfaction (proved by national benchmarks) • Only qualified and continuously trained employees • A versatile offer of activities such as music, sport, dance and excursions • Challenging workshops and activities, and a summer camp in the out-of-school care • All-in rates • Every day organic fruit and dairy products • Attention to sustainability • Childcare certified by HKZ (Harmonisation quality judgement in the social service sector).

Moreover, we offer you the security of:
• More than 70 years of experience • The largest professional childcare organization in The Hague and the surrounding area.

Educational policy as a basis
Our educational policy forms the primary principal for the procedure at all our childcare centres. This policy, for instance, provides the direction for the character of our centres, outside spaces, the approach of the educational staff members and our offer of activities. As one of the few childcare providers in the region, we employ educationalists and out-of-school care coaches, who supervise the educational qualities and support our staff in the daily practice. Periodically, our educational quality is (scientifically) researched, in order to increase this quality continuously. Educational staff members are given further training via an (online) offer of courses in the field of the latest educational perception. In addition, they also do courses addressing First Aid for children, reading stories, numeracy and mathematics for preschoolers, anticipating developments, and involvement in playing.
Learning in a playful way 0-4 years

2Samen offers more than just day care. Every day, our staff members dedicate themselves to offering your child the challenges it needs. Playfully, we stimulate development, such as in the fields of language, thinking and social skills.

The day care centre
Tender loving care and sufficient peace are essential. However, already from the age of a baby, there is also a lot to do and discover at our centres. Learning and developing together, that is what a day care centre is exceedingly suitable for. Our staff members make sure that your child will lack nothing and stimulate its development from the age of a baby. In our day care centres, we pay attention to movement, dance, music and many other things. In addition, we read stories every day to increase the vocabulary. Healthy possibilities for exercise and a lot of open air are also of major importance. Helping in the vegetable garden or shopping together are popular activities. Where possible, we lay out challenging nature gardens and outside spaces. Further, we organize various playful activities in which exercise forms centre stage. Some locations have an electric cart (Stint) with which we can go to the woods, park or beach in no time.

Playgroups
By attending a playgroup, your child will have the opportunity to widen his or her world and to gain new experiences. Their ‘home world’ will expand considerably. Moreover, it is a good preparation for the primary school. For instance, your child playfully learns what it is like to function in a group, to play together and to share things. In the playgroup, 2Samen uses themes that are connected with various activities, such as handicraft, reading stories, songs and dances. In doing so, we stimulate a broad development.

Early childhood education and care
Children, who start at the primary school with a language or arithmetic deficiency, are often troubled by it for the rest of their school years. An ECEC programme at our playgroups or day care centres can be the solution. We will pay extra attention to language or arithmetic skills and to social and communicative skills, with which we considerably increase their chances of having a good school career.
Learning in a challenging way
4-13 years

In our out-of-school care programme, we focus our work on development and growing independence. However, out-of-school care time is leisure time and children can therefore make their own choices. Just reading a book or playing outside together certainly form part of the possibilities.

After-school care: the most elaborate offer of activities in the whole region

Our internal project department KICKs organizes a challenging and varied range of activities that offer children the possibility to discover (new) talents every week. With more than 200 different workshops from which our locations can make their own choice, various clinics and even a summer camp, we undoubtedly have the most elaborate offer in the whole region! These activities are included in our rates, so you don’t have to pay any extras.

In our daily practice, we pay a lot of attention to exercise and experiencing nature. For instance, we organize sports days, outdoor programmes and nature discovery days. In addition, we frequently organize fun outings.

Cooperation with schools

2Samen has a cooperation agreement with many primary schools in the region. In some cases, we even take care of the after-school activities programme in case of prolonged schooldays.

If your child attends one of the primary schools with which we cooperate, he or she will be picked up from school. If your child attends another school, he or she will also be welcome at our care centre, but unfortunately we will not always be able to pick him or her up from school ourselves.
REGISTRATION FORM

When you indicate your wishes using this form, we will get in touch with you to discuss the possibilities, without any obligations. You can also simply and quickly register digitally via 2samen.nl.

Do you already have a child placed in a 2Samen childcare centre?

When you have made a choice

We hope that you will choose a 2Samen childcare centre. Do you have any questions, need extra information, or appreciate a personal explanation? The staff of the Planning & Advice department will be happy to help you. They can be contacted during working days from 8.30 a.m. until 5 p.m. via 070 338 55 00 or planning@2samen.nl. Or you can visit our website: 2samen.nl. There you can find more information and download various leaflets and brochures.

Registration
You can simply register via our website. You can use the attached registration form as well.

Immediate placement?
As soon as you have registered, we will check whether we can place your child. Sometimes a place will not immediately be available at the centre of your preference. We will get in touch with you to discuss the possibilities. If you wish, we will place your child on a waiting list. We may be able to offer you our services at another childcare centre in the meantime.

Introductory interview
Once your child’s placement is officially arranged, we will invite you at the childcare centre to get acquainted extensively with the people who will take over (part of) the care of your child. During the introductory interview, we will allow plenty of time for you. We are very interested in your expectations and specific wishes. Obviously, we try to respond to these as well as possible.
What does childcare cost?

What childcare will cost for you, depends on aspects such as your income, the number of children for which you need childcare, the type of care and the package you will choose. On our website, you can find an overview of our current hourly rates.

You may be eligible for childcare allowance. The amount depends on your level of income. On 2samen.nl you can find extensive overviews with an indication of the net costs per income. You can also find a link to the website of the tax authorities, where you can have a test calculation made. If you do not have internet, our Planning & Advice department will be pleased to make this calculation for you.
